[^0]
## Main Group Drivers behind Key Figures

## Q2 2012

- Strong performance of industrial inkjet and healthcare IT.
- Situation on the traditional film markets continues to normalize.
- Thanks to the Group's efforts to improve operational efficiency, gross margin continued to recover quarter-on-quarter. In spite of the negative raw material impact, gross margin even improved year-on-year.
- Recurring EBIT at 32 million Euro.
- Net debt at 306 million Euro.

## Graphics: Main Drivers behind Key Figures

## Q2 2012

- Industrial Inkjet performed strongly.
- In analog prepress, the evolution of the film volumes continued to normalize.
- In digital prepress, the European business suffered from the weakness of the economy. This was counterbalanced by a strong performance in the Americas and Aspac.
- In spite of the negative impact of raw materials, the gross profit margin was in line with last year's quarter. The effects of the competitive pressure in digital prepress and the raw material effects were counterbalanced by the film price increases and the operational improvements.
- Recurring EBIT at 12.7 million Euro.

## HealthCare: Main Drivers behind Key Figures

## Q2 2012

- In IT, both Imaging IT and Enterprise IT posted strong revenue growth.
- The situation on the traditional X-ray market started to normalize.
- The digital radiography business was rather soft due to extended accreditation processes for medical devices.
- Continuing the trend of the past quarters, gross profit improved versus last year reflecting the diminishing impact of the high raw material prices, as well as the own efforts to improve operational efficiency.
- Recurring EBIT at 20.1 million Euro.
