Versatile digital imaging, with no-compromises image quality

CR 30-X + DRYSTAR 5302 + 36 months of DRYSTAR film*

For a limited time, Agfa HealthCare is offering this unique digital imaging package that combines the versatility and no-compromises image quality you need for your private or decentralized CR environment.

We've put together our highly versatile CR 30-X digitizer with our dual media size DRYSTAR 5302 direct digital imager: it's everything you need to discover digital imaging. Plus, we're including 36 months of our high throughput, dry processing, DRYSTAR film*. With the 1 year warranty included, your path to digital leads right into your future!

Don't miss out on this temporary opportunity: contact your local Agfa HealthCare distributor, who can explain all the advantages.

*(max 4500 m² DRYSTAR film /contract)
