

How can better image management help achieve financial savings?

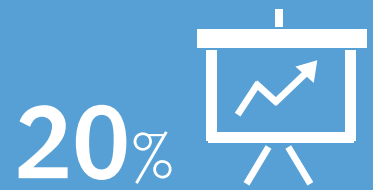

Film purchases dropped by **98%**

DATA ARCHIVING

100% digital image archive
No extra staff is needed anymore

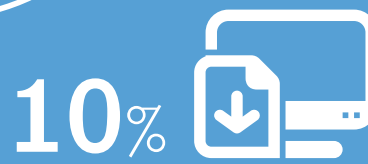

PRODUCTIVITY

Productivity grew by **20%** in the first 6 months due to high availability, performance and better image access

NEW BILLABLE SERVICES

2% more billable services as centre of expertise, providing better collaboration and second opinion between different hospitals

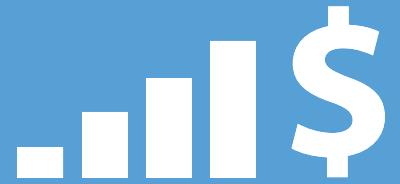

CONSOLIDATED IT PLATFORM

10% savings realized over a period of 2 years by reducing licensing, EMR integration and maintenance costs

Findings from a qualitative study conducted by HIMSS Europe*

By implementing an Enterprise Imaging Solution hospitals have achieved significant **cost savings**, while improving **productivity** and adding **new billable services**.

Put the financial benefits of Agfa HealthCare's Enterprise Imaging to work for your institution

Agfa HealthCare Enterprise Imaging covers the entire spectrum - from medical imaging to centralized archiving, workflow tools, image exchange and result distribution.

This unified imaging platform **reduces the costs** associated with film, printing, CDs and hardcopy file storage for images, and reduces staff time spent on archiving and retrieval. **Easy sharing** of medical images **enhances productivity** and reduces exam duplication, opens up **new billable service opportunities** for centers of expertise, which can provide second opinions and advice to smaller centers.

Discover your benefits!

- Lowered use of consumables (film, CDs, ..) and hardcopy storage space for images
- Reduce staff and radiologist time spent archiving and travelling between sites
- Lower IT costs by consolidating IT infrastructure and leveraging existing investments
- Reduce exam duplication and data loss
- Increase efficiency and production
- Increase billable services

Call your regional Agfa representative to discover how we can take your institution to new levels of value-based care and productivity
