

# Do your imaging solutions improve workflow and staff satisfaction?

## MORE PATIENTS

More efficient workflow resulting in **10 %** increase in patient volume within a period of 2 years

## PATIENT SATISFACTION

More efficient workflows and access to patient history allow the radiologist to spend **more time with patient** and clinicians

## MOBILE ACCESS

Anywhere access to images and reports, even on a **mobile device** with a low bandwidth wi-fi connection

## TURNAROUND TIME

With the Enterprise Imaging suite, our turn-around time for images and reports is reduced by **75%**

## STAFF SATISFACTION

Staff satisfaction went up a lot because the anywhere, anytime access offers the physicians the ability to **work remote when on call**

Findings from a qualitative study conducted by HIMSS Europe\*

Enterprise Imaging solutions realized significant workflow improvements with **easy-to-use, fast and flexible** systems, providing **better collaboration** and reduced turn-around time, resulting in **increased staff satisfaction**.

Findings from a qualitative study conducted. Finding based on a qualitative study of IT leaders and head clinicians in imaging departments in large acute care hospitals with more than 400 beds located in Europe and the Middle East, conducted between August and October 2014 by HIMSS Europe GmbH. The quotes are from hospitals are illustrative examples based on their particular experiences and business operations. Actual productivity results and associated savings may vary.
