Introduction
Company

Computed Radiography

“We were able to reduce dose by at least 50% on average, and for some exams even 70%, while obtaining a better image quality.”

Dr. Michel Kalkbrenner
Chief of the Radiology Department, H. Hartziekenhuis, Lier, Belgium

Customer Case

“We have a digital medical record for all of these children, a unique feat in the country's medical records approach.”

Dr. Pascal Van Droghda
Founder, Palm Leaf Association

On the spot radiology:
Mobile clinic in Burkina Faso
“Health for All” project extends medical care

CR 10-X

- Good image quality with
- excellent value for the patient, lower
- equipment recovery program

When Dr. Pascal Van Droghda launched the Palm Leaf “Health for All” project to combat ill children in Burkina Faso, the project's realisation was a key challenge for 10,000 children and their families. Agfa HealthCare's CR 10-X is a vital link in the project. Unlike conventional CR, CR 10-X is a mobile unit that can be used in a digital medical record system, providing a unique feat in the country's medical records approach.
