

Enterprise Imaging Technology Service Subscription

Maintain & Sustain the Health of your EI System Effortlessly

Exclusive Program to Propel Our Partners Ahead

At AGFA HealthCare, we fully understand the complexities and challenges presented by the rapid evolution of digital technologies. The swift pace of change can often render healthcare systems outdated, leading to diminished performance, increased security risks, and overstretched IT teams. These issues inevitably affect operational efficiency and delivery of patient care. Additionally, legacy software can hinder the integration of innovative functionalities that could significantly enhance clinical productivity.

In response to these pressing concerns, we are excited to unveil our exclusive [Technology Service Subscription](#). Designed specifically for our valued partners with on-premise implementations, this premier program delivers continuous updates, advanced education, and personalized training. Far exceeding conventional software support, our subscription ensures that our partners stay at the forefront of technological advancement, aligning seamlessly with their business goals for enduring success and excellence.

Maximize Value, Minimize Effort

Enjoy a seamless experience with no upfront costs, predictable pricing, and ongoing improvements. Simplify your operations with pre-planned upgrades, managed services, and continuous technology adoption for sustained growth and satisfaction.

Technology Service Subscription

Continuously improve upon the health, security, stability, and clinical adoption of your EI system through these ongoing touchpoints:
