## REJUVENATOR AND CONDITIONER 300A

### **Blanket and Roller Rejuvenator, Conditioner & Deglazer**

#### **DESCRIPTION:**

Rejuvenator and Conditioner 300A is a multipurpose product that can be used on presses of all sizes. It is unique in that it is a one-step rejuvenator, conditioner and deglazer for blankets and rollers. The product is an easy to apply liquid that restores and conditions rubber surfaces and prevents dehydration.

Rejuvenator and Conditioner 300A will make your blankets and rollers velvety smooth which in turn will improve print quality and extend the life of your rollers and blankets. This is a maintenance product that should be used on a regular basis.

#### **FEATURES:**

- Premium cleaning product blanket and roller maintenance.
- Effective on both web and sheetfed presses
- Very low odor and low vapor pressure product and non-red label
- Prevents roller and blanket dehydration with regular use.

#### **DIRECTIONS FOR USE:**

**Rollers:** Apply full strength across the top of the rollers and allow the product to run into the roller train for a few minutes and engage the washup blade. Follow up with a water rinse. Reapply as necessary.

**Blankets:** Apply full strength with a saturated cloth. A second wipe with a damp cloth will remove any excess material after the product has been applied.
